Auriga of the Future

OFFER LETTER – SOFTWARE DEVELOPER (CORE TEAM)

Date: 04/07/2026

To,
Prateek Khare
prateekkhare2111@gmail.com

Subject: Offer of Engagement – Software Developer (Core Team Member)

Dear Prateek Khare,
We are pleased to offer you the position of **Software Developer (Core Team Member)** at AureetureAI, an emerging AI-driven talent discovery and hiring ecosystem.

Your engagement will commence with a **10-day evaluation period**, during which your technical aptitude, problem-solving ability, coding skills, communication, ownership, and collaboration will be assessed. Successful completion of this evaluation will lead to your continuation as a **Software Developer (Core Team Member)**.

Following the evaluation period, you will undergo a structured onboarding programme, during which you will gain a comprehensive understanding of AureetureAI's technology stack, software architecture, development workflows, coding standards, version control practices, and engineering processes while working closely with the engineering and founding teams on guided assignments and real-world projects.

Upon successful completion of the onboarding programme, you will continue your engagement as a **Software Developer (Core Team Member)**. This will be a **hybrid engagement**. This is an unpaid Core Team engagement. No salary, stipend, consultancy fee, honorarium, commission, equity, or any other monetary compensation shall be payable unless expressly agreed to in writing by AureetureAI.

Responsibilities

As a **Software Developer (Core Team Member)**, your responsibilities will include:

- Designing, developing, testing, debugging, and maintaining scalable software solutions
- Collaborating with cross-functional teams and contributing to frontend and backend development
- Integrating APIs and participating in code reviews
- Writing clean and maintainable code, and optimizing application performance
- Assisting in the development of AI-driven features across AureetureAI's platform

Performance Evaluation

Your performance will be evaluated based on technical proficiency, code quality, problem-solving ability, execution, collaboration, ownership, learning agility, and your overall contribution to engineering and product objectives. AureetureAI follows a flexible, outcome-driven work culture where quality, accountability, and results are valued over fixed working hours.

Termination and Notice Period

This **Core Team engagement** is an **At-Will engagement**, meaning both AureetureAI and you reserve the right to terminate the engagement. To ensure a professional handover of responsibilities, a mandatory notice period of **7 days** is required from either party before termination or resignation, except in cases of misconduct or breach of this Agreement or its Annexures, which may result in immediate termination without notice.

Growth Opportunities

This Core Team engagement offers hands-on experience in full-stack software development, AI-powered product development, cloud deployment, system design, and startup engineering, along with direct mentorship from the founding and engineering teams while working on live production systems.

Exceptional performance may, at the sole discretion of AureetureAI, lead to increased responsibilities, leadership opportunities, future paid engagement, equity participation (if offered), or any other opportunity deemed appropriate by the Company. Any such opportunity shall be governed by a separate written agreement.

Governing Annexures

This Offer Letter shall be read together with, and is subject to, the following Annexures, each of which forms an integral part of your engagement with the Company:

- Annexure I – Terms & Conditions Of Core Team Engagement
- Annexure II –Intellectual Property Rights, Codebase Ownership & Confidentiality
- Annexure III – Operational Policy & Terms of Engagement
- Annexure IV – Joining Formalities & POSH Compliance

Please sign the acceptance section at the end of this letter and return a scanned copy to confirm your participation. If you have any questions, please feel free to contact us. We look forward to welcoming you to AureetureAI and wish you a rewarding, challenging, and impactful journey as a **Software Developer (Core Team Member)**.

Warm regards,
From AureetureAI

ANNEXURE I – TERMS & CONDITIONS OF CORE TEAM ENGAGEMENT

- You shall comply with all instructions provided by your designated supervisor and other authorized representatives of AureetureAI.
- You shall maintain strict confidentiality and shall not disclose, share, or use any proprietary or confidential information of the Company without prior written authorization. Detailed confidentiality obligations are set out in Annexure II.
- Any software, code, documentation, algorithms, tools, or other materials developed or contributed to by you during the engagement shall be the exclusive property of AureetureAI, as further detailed in Annexure II.
- You shall not undertake any other employment, freelance, or part-time work during the engagement period without the Company's prior written consent.
- All Company property and assets (tangible or intangible) provided to you must be returned in proper condition before completion of the engagement.
- You are expected to uphold a high standard of conduct and professionalism. Misconduct, negligence, or breach of Company policy may lead to disciplinary action or termination of the engagement.
- You agree to adhere to any additional rules, regulations, or policies communicated by the Company during the engagement.

ANNEXURE II – INTELLECTUAL PROPERTY RIGHTS, CODEBASE OWNERSHIP & CONFIDENTIALITY

1. Work Made for Hire and Assignment of IP

All intellectual property, including source code, documentation, algorithms, designs, APIs, AI models and prompts, infrastructure and DevOps scripts, databases, internal libraries, inventions, discoveries, and any other materials created, developed, or contributed to by you during the engagement ("Work Product") shall be the sole and exclusive property of AureetureAI.

You agree to promptly disclose in writing any such Work Product to the Company. AureetureAI reserves the full right to apply for patents, copyrights, trademarks, or any other form of legal protection for the Work Product in its own name. You unconditionally assign all rights, title, and interest in the Work Product to the Company, without any claim to ownership or compensation, and shall not publish, present, or disclose any Work Product without the Company's prior written consent.

2. Codebase, Repository, and Infrastructure Access

You may be granted access to the Company's source code, version-control repositories (including GitHub, GitLab, or Bitbucket), cloud infrastructure (including AWS, Azure, GCP, Cloudflare, Vercel, Railway, Firebase, and Supabase), and databases, solely to perform your assigned duties. All such codebase, repositories, and infrastructure — regardless of who authored or configured any part of it — remain the exclusive property of the Company at all times.

Without the Company's prior written authorization, you shall not:

- Clone, fork, or copy any Company repository to a personal or third-party account
- Download, export, or transfer Company code, data, or credentials outside Company-approved environments

- Take screenshots or screen recordings of Company code, dashboards, or internal systems
- Upload any part of the codebase or related resources to personal cloud storage (e.g. Google Drive, Dropbox, OneDrive)
- Share repository access, credentials, tokens, or keys with any third party
- Retain any copy of Company code or data on personal devices after completion or termination of the engagement.

3. Pre-Existing Intellectual Property

You are encouraged to disclose in writing, at the time of joining, any pre-existing intellectual property you intend to use during the engagement. Pre-existing intellectual property remains your property unless expressly assigned to the Company in writing. All Work Product created for Company projects during the engagement is, in any event, governed by the assignment provisions of Clause 1 above.

4. Confidential Information

“Confidential Information” includes, without limitation: source code and repositories; APIs, SDKs, and internal libraries; databases and data schemas; cloud and infrastructure credentials; environment variables, secrets, API keys, passwords, tokens, and certificates; system and cloud architecture; internal meeting discussions and communications; pricing, client, vendor, and financial information; product roadmap, AI models, and prompt libraries; and internal research, designs, wireframes, and documentation. You shall maintain strict confidentiality over all Confidential Information, both during and after the engagement.

5. AI Tool Usage Policy

You shall not upload or input Company source code, API keys, database exports, internal documentation, credentials, or client data into any external AI service (including ChatGPT, Claude, Gemini, or GitHub Copilot) unless the Company has expressly authorized that specific use in writing.

6. Open-Source Contributions and Personal Portfolio

You shall not publish, contribute, or release Company code, derivatives, or proprietary components to any public repository or open-source project, and shall not include Company screenshots, architecture diagrams, database schemas, source code, or demonstration videos in a personal portfolio, resume, or public profile, without the Company's prior written authorization.

7. Return of Assets and Access Revocation

Upon completion or termination of the engagement, you shall return all tangible and intangible Company assets in your possession and shall not retain, copy, or reuse any portion of the codebase, IP, or Confidential Information in any manner. All your access to Company accounts and systems will be revoked with immediate effect.

8. Breach and Legal Remedies

Any breach of this Annexure — in particular, any unauthorized use, copying, retention, or leak of the Company's codebase or Confidential Information — entitles the Company, without limitation and in addition to any other remedy available in law, to pursue any or all of the following:

- Immediate suspension of your access to Company systems
- Immediate termination of the engagement without notice or stipend

- Recovery of Company property, code, and data
- Civil proceedings for damages
- Injunctive relief or an order for specific performance to prevent further use or disclosure
- A criminal complaint, where the conduct constitutes an offence under applicable law, including the Information Technology Act, 2000 and applicable provisions of Indian criminal law relating to theft, breach of trust, or offences involving computer resources

You acknowledge that unauthorized disclosure or leak of the Company's codebase or Confidential Information may cause the Company irreparable harm that money alone cannot adequately compensate, entitling the Company to seek injunctive relief in addition to damages.

9. Survival and Governing Law

Your obligations under this Annexure continue indefinitely after completion or termination of the engagement, except in respect of information that lawfully enters the public domain through no breach of this Annexure. This Annexure is governed by the laws of India, and the courts at Prayagraj, India shall have exclusive jurisdiction over any dispute arising in connection with it.

ANNEXURE III – OPERATIONAL POLICY & TERMS OF ENGAGEMENT

1. Attendance and Working Hours

You are expected to remain available and responsive during your assigned working hours, which will be mutually agreed based on team and project requirements. Attendance is monitored, and repeated unavailability or delays may affect your performance evaluation.

2. Communication and Reporting

You are expected to participate in daily standups and team meetings, report progress to your Reporting Manager, and maintain clear, timely communication regarding blockers, delays, or issues affecting your assigned work.

3. Leave and Absence Policy

You are entitled to two (2) paid leaves per month (Casual/Wellness leave). Leave must be applied for and approved by your Reporting Manager at least 24 hours in advance, except in a medical emergency, where you must inform the Company by 10:00 a.m. on the day of absence.

Absence beyond the monthly quota, or without prior approval, will be treated as Loss of Pay (where applicable). Absence without intimation for two (2) or more consecutive working days will be treated as voluntary abandonment of the role and may result in immediate termination of the engagement.

4. Code Review and Documentation Standards

You are expected to write clean, well-documented, and maintainable code, to participate constructively in code reviews, and to keep technical documentation for your work current and accessible to the team.

5. Professional Conduct and Conflict of Interest

You are expected to uphold a high standard of conduct and professionalism in all interactions with colleagues and stakeholders. During the engagement, you shall not

knowingly contribute to, develop, consult for, or participate in any competing product or business that creates a material conflict with the Company's interests, without the Company's prior written approval.

6. Company Assets and Access Policy

All Company accounts, credentials, and systems made accessible to you — including source-control platforms, cloud and hosting providers, design and collaboration tools, Company email, admin panels, internal dashboards, and databases — remain the property of the Company at all times and must be used solely for legitimate Company purposes. Such access will be revoked immediately upon completion or termination of the engagement.

7. Reporting Mechanism and Consequences

Any incidents, complaints, or breaches of this Annexure or Annexure II must be reported immediately to the HR Department or the Internal Complaints Committee (ICC). Any confirmed violation will result in immediate termination of the engagement without notice or stipend, and may attract further legal action as per applicable law.

ANNEXURE IV – JOINING FORMALITIES & POSH COMPLIANCE

1. Joining Formalities

To complete your onboarding process and facilitate the release of your Offer Letter and ID Card, the following documents must be submitted in PDF/JPEG format prior to your joining date:

- Government ID Proof: Aadhaar Card / Passport / Voter ID
- PAN Card (mandatory for stipend-related processing, where applicable)
- Educational Documents: latest mark sheet or college ID card
- Photograph: recent passport-size photograph (professional background)
- Resume: updated copy of your CV

Please ensure all documents are clear and legible. Please also note that having a personal laptop capable of supporting the Company's development environment is mandatory for this role.

2. Prevention of Sexual Harassment (POSH) Policy

AureetureAI is committed to providing a safe and dignified environment for everyone and strictly complies with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

Zero Tolerance: Any form of sexual harassment — whether verbal, non-verbal, physical, or digital (including text messages or inappropriate content-sharing) — is strictly prohibited. Incidents or complaints must be reported immediately to the HR Department or the Internal Complaints Committee (ICC), and any confirmed violation will result in immediate termination without notice or stipend, and may attract further legal action as per applicable law.

Declaration and Acceptance of Offer

I, Prateek Khare, hereby declare that I have carefully read and understood the terms and conditions outlined in this Offer Letter, including Annexure I (Terms & Conditions of Core Team), Annexure II (Intellectual Property Rights, Codebase Ownership & Confidentiality), Annexure III (Operational Policy & Terms of Engagement), and Annexure IV (Joining Formalities & POSH Compliance).

I hereby accept the position of Software Developer (Core Team) at AureetureAI on the terms set out above.
